

# FREQUENCY SELECTIVE NETWORK TRAINER

MODEL AD104

This trainer has been designed with a view to provide practical and experimental characteristic study of frequency selective network used for stereo amplifier graphic equalizer section.

## SPECIFICATIONS

1. Power supply : 230V AC, 50Hz.
2. Build-in IC Regulated Supply : + 12V/500mA.
3. Standard Accessories : 1. A Manual having Practical details
4. Experiment:  
To construct frequency selective network for different frequency band for stereo amplifier graphic equalizer section and observe frequency response.

In keeping view of SIGMA policy of continuous development and improvement, the Specifications may be changed without prior notice or obligation.
